1. The terminal disclaimer filed 2/22/05 is in compliance with 37 CFR 1.321(b) and/or (c) and is therefore acceptable. The obvious-type double patenting rejection set forth in the office action dated 11/16/04 is hereby withdrawn.
2. Claim 14 is objected to because of the following informalities: in line 5, "lead-in" should be changed to --lead-out-- for consistency and antecedent basis purposes. Appropriate correction is required.
3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 14 is rejected under 35 U.S.C. 102(b) as being anticipated by JP2000-231722 (hereinafter JP'722). JP'722 shows an optical recording medium in figure 1 that has: a user data area 102 and a lead-out area 103 wherein each of the user data area 102 and the lead-out area 103 have a groove with lands ("pits", see abstract of JP'722) formed therein; and different types of synchronization patterns are used in the lead-out area 103 and the user data area 102, i.e. the user data area 102 is a linear sync pattern, while the lead-out area is a meandering "wobble" sync pattern.

5. Claims 1-13, 15-17 are allowed.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
